

Dear parent(s),

As previously communicated, St Clement's School is beginning a trial of the app SeeSaw to help support families through home-schooling.

In order to access SeeSaw you will need to have downloaded the 'SeeSaw Class' app or go to the website - <https://web.seesaw.me>

You should have received an email stating your child's individual sign in code. Once the child has signed in with this code, they will remain signed into the device for one year or until signed out. Keep the code safe and do not share with anyone else – or share on social media.

When logged in, your child should be able to see work uploaded by their teacher and should be able to comment against this or upload their own work to show their teacher.

It is important that when sharing work through this platform only suitable pictures/comments are shared. Children are not to upload pictures of themselves or family members – just work that has been completed. Nursery & Reception parents still have the option to use EExAT to post photos and videos of their child's learning.

This is a learning process for all involved but an exciting one.
